BRONSON CAVES
Film Production Guidelines

Welcome to the City of Los Angeles, Department of Recreation and Parks (Department). In our partnership to protect the environmental integrity of our parks the Park Film Office is providing guidelines to ensure a safe and successful film shoot. Please review and provide copies of these guidelines to the appropriate responsible persons. Thank you for the continuous use of our parkland.

- Ok to film at the Bronson Caves.
- Ok to place a picture vehicle by the caves.
- Ok to Park in the parking lot, may not have exclusive use of the parking lot.
- All vehicles must be parked in lower dirt parking lot or at caves (limited). All vehicles must remain at least 5 feet away from existing chaparral. No street parking.
- Must leave at least 10 parking spaces in southern part of lower dirt parking lot available for park patron use. Additional parking restrictions may apply, inquire with park coordinator.
- **No smoking.**
- No off trailing, must stay on trails
- May not block the T-gates.
- Alterations will be considered for the exterior grounds only and must be coordinated with this office's Supervisor. No consideration will be given for alteration to cave interior.
- Special effects (explosions, etc) may be considered on a case-by-case basis and for exterior use only. Any special effects that may cause damage to the interior/exterior of cave integrity are not permitted.
- Introduction of large trucks that may have the potential to disturb the rock formations by vibration, weight, or otherwise must be discussed with park personnel for consideration.
- Bolting, drilling or nailing into the cave walls is not permitted. Existing bolts, nails and holes may not be used for mounting props or otherwise.
